INTERNATIONAL POTATO CENTER - CGIAR
NAIROBI, KENYA

29-08-2024

Dear Sir/ Madam,

RE: Application for IT Undergraduate Intern

I am writing to express my interest in the IT Undergraduate Intern position at the International Potato Center - CGIAR, as advertised. As an IT graduate with hands-on experience in various aspects of IT support and systems administration, I am eager to contribute my skills and knowledge to your organization while gaining valuable experience in an international research environment.

Having pursued a degree in Information Technology at KCA University, where I have developed a strong foundation in IT principles, including network management, hardware and software installation, and technical support. My previous internships and work experience have provided me with practical skills in troubleshooting, maintaining IT infrastructures, and supporting users with diverse technical needs.

I am particularly drawn to this opportunity at the International Potato Center because of your commitment to innovative research and sustainable development. I am excited about the possibility of contributing to your IT department, where I can apply my technical skills in a real-world setting and further develop my expertise.

Thank you for considering my application. I am enthusiastic about the opportunity to learn and grow within your organization and am confident that my background in IT aligns well with the requirements of this internship.

Yours sincerely,

Dennis Kiplagat Tanui.
